Croatia

This is one of the ecologically most preserved areas of Europe. It is a place in which colours of sunlit and ebullient Mediterranean are blissfully pervaded with peace and freshness of the mountains and the mildness of golden corny planes of Pannonia. A county of true divine inspiration which many world pens inspiredly wrote and enthusiastically talked about; rare European landscapes can in such a small area pride with yet eight national parks!

Crikvenica Riviera

Crikvenica, a small Kvarner town near Rijeka, which, together with Dramalj, Selce and Jadranovo makes a renowned and attractive riviera with a long tradition in tourism. The area of Crikvenica has always been prominent for its beautiful beaches and amusement appropriate for all generations. Its Mediterranean mild climate and pure sea have turned Crikvenica into an exceptional healing - resting place which is equally well visited in summer and winter. The summers here are extremely long with a large number of sun dials, while the natural environment, the beaches in pine shades and an exquisite overall tourist offer make Crikvenica a little paradise on Earth which will turn your vacation into a summer adventure you will remember for a long time.
